

Dear _____,

Our office will be opening on Monday May 18th. We will be following all CDC guidelines as well as those recommended by our National and State Organizations including the KOA and AOA as well as the Governor of Kentucky. We will be adding to our protocol to ensure the safety of our patients and staff. Due to the recommendations we are following, all patients will need to call from the parking lot when they arrive. We will ask you if you are running a fever or have symptoms of COVID-19. We may even take your temperature to keep for our records. We will ask that you remain in your car until we notify you to come in our office. All patients entering the building must wear a mask or face covering. We ask for your patience over the next few months as we work to get our patients rescheduled that had to be canceled during the closure. We will be in the office next week calling patients that have missed their appointment during this time. We will not be working at full capacity for some time and realize this will most likely cause delays in getting people rescheduled. We will also not be taking walk in patients and ask that you please call if you need to be seen to set up an appointment. Please know that we are doing everything we can to take care of our patients during these difficult times.

Thank you and we look forward to seeing you all soon!
